The Posting Prompts

1. Captions

Here are this month's 13 final videos and their scripts.

For each one write captions for Instagram, LinkedIn, Facebook, YouTube Shorts and Google Business.

Format: hook line, 2-3 lines of value, CTA for its funnel stage, 3-5 local hashtags, and our disclaimer line.

LinkedIn: a bit longer, first person, no hashtags spam.

2. Calendar

Build my content calendar for [month].

Post on Tuesday, Thursday and Sunday. Don't put two TOFU posts back to back. Put BOFU posts mid-week.

Columns: Date, Day, Video, File, Funnel, Platforms, Caption, Status.

Write it into my "[Firm] Content Calendar" sheet.

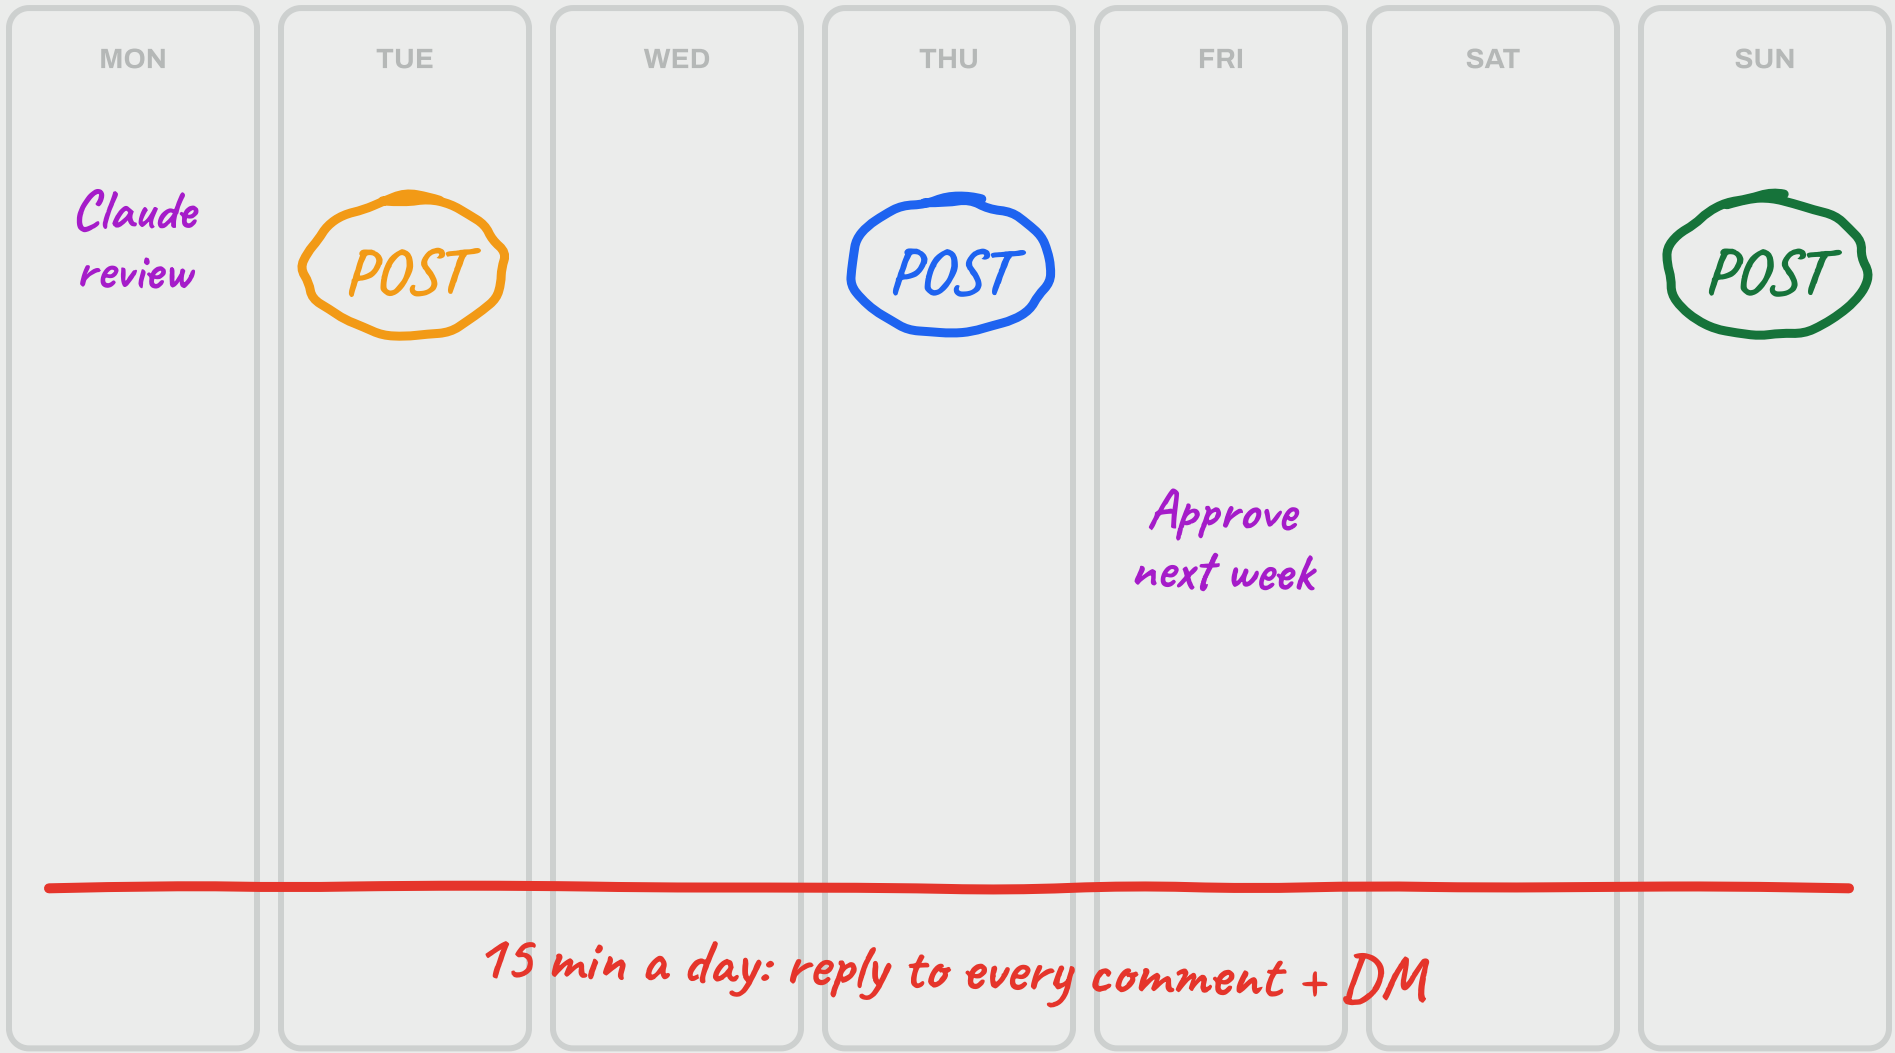

3. Weekly review

Here are last week's numbers per post: views, average watch time, follows, saves, shares, DMs and enquiries.

Which hooks and structures worked? Which flopped and why?

Give me 3 changes for next week and 3 new video ideas based on what worked.
