Use Claude to Draft the Script

Paste this into Claude

```
I run [firm] in [city]. We help [who] with [practice area].
Pillar for this post: [Connection / Value / Proof / Invitation].
My clients usually ask: [3 real questions].

Write a 45-second Instagram Reel script on: [topic].
Use the [structure] structure.
Give me:
- a written hook (on-screen text, under 7 words)
- a verbal hook (first sentence)
- a visual hook (what the viewer sees)
- the body in short spoken sentences
- a CTA for [TOFU / MOFU / BOFU]
- 3 alternative hooks to test

Write it how I talk across the desk, not how I write a letter of advice. General
information only, no promises of outcomes.
```

Then YOU:

1. read it out loud

2. cut anything you wouldn't say

3. add one real example

4. pick the hook

Script Builder

Structure: Myth-bust

15 Minutes

Written hook | On screen, under 7 words	**Verbal hook** | First sentence	**Visual hook** | What they see
"50/50 is a myth"	"Everyone thinks a split is automatically 50/50."	Me tearing a $ note

Body | 3 beats max, short spoken sentences

1. Courts look at contributions, not just who earned what
2. Then future needs: kids, health, earning capacity
3. So 60/40 or 70/30 happens all the time

CTA | Matches the funnel stage	**Compliance check** | General info? No promised outcomes? No client details?
"Follow if you're in the middle of a separation."	✓ ✓ ✓
